## **“OLIVE - Beauty-Medi-Care”** *by Minoan Life*

**For women and men who love living close to nature.**

**«Olive – Beauty•Medi•Care» is a natural cosmetics brand, dedicated to offering high quality products, made from ingredients that originate from Cretan olive oil and natural herbs exclusively.**

**Minoan Life has developed its own complete line of natural face and body care cosmetics, based on olive oil and Greek natural herbs. The company’s quality policy ensures collaborations with state-of-the-art research centers. 30 different formulas of thoroughly selected herb and other raw material combinations have already been produced exclusively for Minoan Life. The high levels of purity reveal their beneficial and revitalizing characteristics.**

**All product folders have been submitted to the European Union and the Greek National Medicine Association.**

# "KYR MENTIOS" by olivie

## "Maternal instinct" with centuries of experience!

The composition of the donkey milk is similar to that of the human breast milk than any other, while its reputation remains unchanged throughout the centuries. As an excellent therapeutic product and elixir of beauty, this unique nutritious and healthy milk becomes synonymous with maternal care and it is characterized as the "affectionate wet nurse" of the skin!

In **OLIVIE**, we use with confidence and respect this 5000 years experience of natural health and beauty and we enrich the unique characteristics of donkey milk with organic olive oil by introducing new standards of natural care and hygienic skin protection.

The new cosmetics line **KYR MENTIOS** by **OLIVIE**, constitutes - for any skin type - the ideal nutritional choice for moisturizing and toning of the skin in combination with the intense antioxidant effect of organic olive oil.

In our own way, i.e. **OLIVIE**'s way, we make the **difference between the cosmetic and real glow of health**, by using the wisdom of nature and the scientific knowledge.

## KYR MENTIOS by olivie

### KYR MENTIOS: The "affectionate wet nurse" of the skin

The new cosmetic line **Kyr Mentios** by **Olivie** has unique properties because of donkey milk that contains. Because Donkey milk:

- is rich in lactose and bioactive proteins, it constitutes the ideal nutritional choice for the health and beauty of normal, dry, yet sensitive skin.
- It contains albumins, which are protein complexes and create a moisturizing effect on the upper skin layers by reducing the transepidermal loss in relation to skin hydration.
- It combines peptides and amino acids, which, as we have seen, contribute to the strengthening of the natural moisturizing skin factor (NMF), improve skin hydration, nourish and revitalize skin.
- It is especially rich in vitamins A, B1, B2, B6, D & E, as well as vitamin C, it constitutes a source of calcium, magnesium, phosphorus, zinc, Omega 3 & Omega 6 fatty acids.

### KYR MENTIOS: Ideal combination of nature and biotechnology.

The new line of **Kyr Mentios** cosmetics by **Olivie**:

- uses the donkey milk as a basic ingredient, which is produced through a special method of cryogenic sterilization and cold milk powder processing - below 0 °C - and this is the only method that ensures the effective destruction of all pathogenic microorganisms, while the milk retains all its beneficial characteristics
- has a high donkey milk content, perhaps the highest content in its category
- The combination of vitamin E contained in the milk and the organic olive oil ensures -thanks to their unique antioxidant effect- the health and homogeneity of skin cells.

**New cosmetic line of nourishing and natural protection for a beautiful skin that looks super healthy!**
